Dear Prospective Student

Thank you for enquiring about our accredited training

### **What follows is a basic breakdown of the EduExperts ECD L5 Advanced Training Qualification.**

ECD Advanced Level 5 - SAQA ID 23117, is an ETDP SETA and SAQA accredited training course for prospective Pre School Teachers, Day Mothers and Teaching Assistants. This is the accepted second step towards attaining a comprehensive ECD qualification. A period of approximately 13 months is required to complete the 14 modules – Unit Standards – consisting of 3 components:

1. A compulsory Online contact training session monthly - (A second support session is optional)
2. Practical contact sessions with preschool learners are required including evidence of these contact sessions.
3. Theory and assignments to be assessed in determining competency

You will be required to upload all completed theoretical and practical assignments in adherence to submission dates which will be strictly monitored by your Facilitator and Assessor – A one month period will be provided to complete and upload assignments of the facilitated and presented Module.

Adhering to the programme, compiling a complete e-Portfolio of Evidence (e-POE) will be required at the end of the course for Final external Assessment, Moderation and ETDP SETA Verification. When confirmed competent you will receive the following:

- A completion certificate from EduExperts.
- A Statement of Results from ETDP SETA –(SOR)
- A SAQA accredited and sealed certificate to be handed to you during a formal Graduation Ceremony, the date of this ceremony will be communicated well in advance including date, time and venue. The SAQA certificate will enable you to register with SACE (South African Council for Educators) as a certified Early Childhood Development Practitioner.

The L4 and L5 certificates through EduExperts will meet the requirements for admittance to L7 as credits acquired will be sufficient.

## **Answers to Frequently Asked Questions, Way Forward:**

1. A recognised ECD L4 is required to gain access to our L5 learning programme. (Contact our Head Office for further information).
2. An ECD L4 from another institution, other than EduExperts, necessitates authentic proof of the 140-credit prerequisite for the training of L5. (You need to be found competent with 140 plus credits in L4 to gain access to L5)
3. Foreigners from SADEC Countries will need a copy of their Passport and latest qualification to be admitted.
4. The new ECD Integrated Policy dictates the required qualifications to work as Educators in the Foundation Phase. In terms of the Policy on Minimum Requirement for Program leading to Qualifications in Higher Education the following applies: ECD L4 (140+ Credits), ECD Advanced L5 (240 Credits) and L6 (A dedicated task team has been appointed to align the Matrix of this qualification for the QCTO) and finally ECCE L7 your B.ed Foundation phase vocational equivalent.
5. Advanced L5 is a requirement for admission to Institutions of Higher Learning to do a Baccalaureate of Education (B Ed) or B Ed Equivalent ECCE L7, with the transfer of Credits Accumulation Transfer (CAT).
6. SACE recognises this NQF 5 and registers Practitioners as Professional ECD educators.
7. The ECCE L7 qualification allows students to work as Foundation Phase Educators (0-9 years, Grade 0 to 3)

Note: The objective should be to obtain a B Ed or ECCE L7 within 2 years of completion of the NQF 5.
